

# Sherryl Packiya Raja

Cary, North Carolina  
careers@sherrylsdavid.com

Experienced Front-End Developer with a proven track record in designing, developing, and optimizing complex web applications for prominent organizations. Proficient in utilizing a range of cutting-edge technologies to enhance user experiences and streamline network planning processes. Skilled in fostering efficient collaboration across cross-functional teams to achieve project objectives. Committed to delivering high-quality solutions that align with business goals.

---

## Technical Expertise

---

- **Web Development:** Proficient in developing dynamic web applications using Spring Boot, Angular 2, Backbone JavaScript, and JQuery. Strong understanding of frontend and middleware technologies to deliver exceptional user interfaces and seamless functionalities.
- **Version Control & CI:** Experienced in setting up and managing code repositories on Github, overseeing push/pull workflows, and implementing continuous integration services for efficient collaboration and code deployment.
- **Design & Optimization:** Skilled in creating engaging layouts, images, and navigational elements for superior user experiences. Proven ability to optimize application performance and responsiveness through thoughtful design and efficient coding practices.

## Professional Experience

---

### Senior Project Engineer

WIPRO | Nokia | Chennai, India  
2017 April – 2018 December

Played a pivotal role at Nokia in creating a multi-layer network planning tool, configured code environments, managing workflows, and implementing integration services.

- *Developed next-gen multi-layer network planning web app, streamlining engineering, and optimizing network layers.*
- *Led team in environment setup, GitHub management, and Continuous Integration.*
- *Utilized Spring Boot for server and Angular 2 for client, managed dependencies with Maven and npm*

### Project Engineer

WIPRO | CITI Bank - Singapore | Chennai, India  
2016 June – 2017 March

Spearheaded the development of a banking application at CITI Bank Singapore, tailoring comprehensive investment strategies for customers and delivering personalized financial growth.

- *Built app for privileged banking services, offering tailored investment strategies and wealth management.*
- *Designed modules from scratch, including layout, images, and reactive multi-level tables.*
- *Developed middleware using Spring and front-end using Backbone, jQuery, and Less CSS*

### Project Engineer

WIPRO | CITI Bank – BANAMEX - Mexico | Chennai, India

**2015 December – 2016 May**

Contributed to the establishment of a payment gateway for online card transactions at CITI Bank BANAMEX.

- *Constructed payment gateway for online card transactions, enabling secure payment authorization.*
- *Implemented controller, JSP, XML parser, and DAO helper classes.*
- *Developed client-side using Spring framework.*

## Education

---

### Bachelor of Technology in Electronics and Communications Engineering

SRM University – Chennai, India

**May 2011 – August 2015**

## Certifications

---

- Meta Front-end development
- Google Foundations of Project Management

## Skills

---

- HTML5
- CSS3
- Java Script
- React
- Angular
- Git
- Node JS
- Typescript
